Warning to Residents and Businesses

Dracut, MA – James Duggan, Town Manager and the Dracut Board of Selectmen have been informed that several third party utility companies have been sending their marketing staff into Dracut neighborhoods on a door to door solicitation campaign to encourage Dracut residents into changing their electrical supply providers.

This door to door utility marketing/solicitation is not a part of the Town's Municipal Aggregation Program. The Dracut Police Department requires door to door solicitors to be registered with the local Police Department. To date, the Dracut Police Department has not either reviewed or approved such solicitation. If a utility marketing solicitor comes to your door, please contact the local Police Department at 978-957-2123 and speak with the Police Dispatcher.

Information on the Town's Municipal Aggregation Program can be found on the Town's website or by contacting Betsy Ware, Director of Community Development at 978-453-4557. The Municipal Aggregation Program has acquired an electricity bulk rate of 9.49 cents per kilowatt hour, for a fixed two-year period of time. There is no other electricity supply program presently available that will allow such a low rate for a two-year period.
