

TOWN OF DRACUT BOARD OF HEALTH
TOBACCO CONTROL REGULATIONS

SECTION 1: PURPOSE

Whereas there exists conclusive evidence that tobacco smoke causes cancer, respiratory and cardiac diseases, negative birth outcomes, irritations to the eyes, nose and throat (Center for Disease Control and Prevention, (CDC) (2012), *Health Effects of Cigarette Smoking Fact Sheet*. Retrieved from: http://www.cdc.gov/tobacco/data_statistics/fact_sheets/health_effects/effects_cig_smoking/index.htm;

Whereas among the 15.7% of students nationwide who currently smoke cigarettes and were aged less than eighteen (18) years, 14.1% usually obtained their own cigarettes by buying them in a store (i.e., convenience store, supermarket, or discount store) or gas station (CDC (2009), *Youth Risk Behavior, Surveillance Summaries* (Morbidity and Mortality Weekly Report (MMWR) 2010: 59, 11 (No. SS-55)) Retrieved from: <http://www.cdc.gov/HealthyYouth/yrbs/index.htm>);

Whereas nationally in 2009, 72% of high school smokers and 66% of middle school smokers were not asked to show proof of age when purchasing cigarettes (CDC Office of Smoking and Health, National Youth Tobacco Survey, 2009. Analysis by the American Lung Association (ALA), Research and Program Services Division using SPSS software, as reported in "Trends in Tobacco Use", ALA Research and Program Services, Epidemiology and Statistics Unit, July 2011. Retrieved from: www.lung.org/finding-cures/our-research/trend-reports/Tobacco-Trend-Report.pdf);

Whereas the U.S. Department of Health and Human Services has concluded that nicotine is as addictive as cocaine or heroin (CDC (2010), *How Tobacco Smoke Causes Disease: The Biology and Behavioral Basis for Smoking-Attributable Disease*. Retrieved from: http://www.cdc.gov/tobacco/data_statistics/sgr/2010/);

Whereas despite state laws prohibiting the sale of tobacco products to minors, access by minors to tobacco products is a major problem;

Whereas nicotine levels in cigars are generally much higher than nicotine levels in cigarettes (National Institute of Health (NIH), National Cancer Institute (NCI) (2010). *Cigar Smoking and Cancer*. Retrieved from: <http://www.cancer.gov/cancertopics/factsheet/Tobacco/cigars>);

Whereas Non-Residential Roll-Your-Own (RYO) machines located in retail stores enable retailers to sell cigarettes without paying the excise taxes that are imposed on conventionally manufactured cigarettes. High excise taxes encourage adult smokers to quit and high prices deter youth from starting. Inexpensive cigarettes, like those produced from RYO machines, promote the use of tobacco, resulting in a negative impact on public health and increased health care costs, and severely undercut the evidence-based public health benefit of imposing high excise taxes on tobacco (¹ Eriksen, M., Mackay, J., Ross, H. (2012). *The Tobacco Atlas*, Fourth Edition, American Cancer Society, Chapter 29, p. 80. Retrieved from: www.TobaccoAtlas.org.) and (Chaloupka, F. J. & Lippman, P. D., NIH, NCI (2001). *The Impact of Price on Youth Tobacco Use, Smoking and Tobacco Control Monograph 14: Changing Adolescent Smoking Prevalence*) 193 – 200. Retrieved from: <http://dcccps.nih.gov/TCRB/monographs/>);

Whereas it is estimated that 90% of what is being sold as pipe tobacco is actually being used in Non-Residential RYO machines. Pipe tobacco shipments went from 11.5 million pounds in 2009 to 22.4 million pounds in 2010. Traditional RYO tobacco shipments dropped from 11.2 million pounds to 5.8

million pounds; and cigarette shipments dropped from 308.6 billion sticks to 292.7 billion sticks according to the December 2010 statistical report released by the U.S. Department of the Treasury, Alcohol and Tobacco Tax and Trade Bureau (TTB) (TTB (2011). *Statistical Report – Tobacco* (2011) (TTB S 5210-12-2010). Retrieved from: <http://www.ttb.gov/statistics/2010/201012tobacco.pdf>;

Whereas the sale of tobacco products is incompatible with the mission of health care institutions because these products are detrimental to the public health and their presence in health care institutions undermine efforts to educate patients on the safe and effective use of medication, including cessation medication;

Whereas educational institutions sell tobacco products to a younger population, who is particularly at risk for becoming smokers and such sale of tobacco products and is incompatible with the mission of educational institutions that educate a younger population about social, environmental and health risks and harms;

Now, therefore it is the intention of the Dracut Board of Health to regulate the sale of tobacco products.

SECTION 2: AUTHORITY
