Artwork, colors, etc

DRACUT CMTE. ON
**ECONOMIC
DEVELOPMENT**

What is Make It Dracut?

It is a slogan developed by the Economic Development Committee to provide a catchy shorthand for activities in town.

NOTES ON VISUALS:

- While developed by our committee, it is not limited to just Econ Dev. Anyone can (and should!) use it.
- Color is matched to the newest Dracut visual guidelines. But! Creativity is encouraged.
- All artwork created by us in this document is fair use - no permission needed

Standards

GREEN & BLACK, WHITE BORDER

This is the original standard version. The white border lets it pop from the background in cases like bumper stickers or other colored backgrounds.

Standards

SINGLE COLOR OUTLINE

Good for simple things, can be changed to white to work on dark colors.

**MAKE IT

GREEN & BLACK, BLACK BORDER

Good for white backgrounds & more general use cases where the white border won't work.

Get “creative”

While most versions you see from our committee and the town will be green to match our colors, you can be creative!

This is an example of one we did for the Dracut Middies – it keeps the text, but adjusts to use a blue color instead.

All profits (approx \$4 to \$8 depending on the item) go towards funding of economic development tasks in the Town of Dracut!

In writing!

You can also choose to eschew the symbol and purely use the tagline. It was made to be flexible.

If a singular word is used (PIZZA vs PIZZAS) add an S to MAKE so it sounds right.

We recommend highlighting the word you're focusing on in some way.
